

CHRONIC CARE MANAGEMENT

Chronic Care Management Programs Help Improve Quality of Care
and Increase Reimbursement

KEY FEATURES OF FLEXCARE CHRONIC CARE MANAGEMENT SERVICES:

Patient outreach

Personalized care management and
preventative care services

Patient-centered care plan

Medication management

The CMS Chronic Care Management Program is a new way for practices to jump start their value-based care plans.

Integrating a new non-face-to-face care program can be challenging. By partnering with Flexcare Health Solutions, your practice can offer non-face-to-face care coordination services to help improve outcomes, enhance the patient experience and increase revenues.

FLEXCARE HEALTH SOLUTIONS CAN
